

## Nevada State Board of Medical Examiners

# Press Release

## June 10, 2010

### **BOARD OF MEDICAL EXAMINERS ENTERS INTO STIPULATION AND ORDER TO RESTRICT THE SCOPE OF PRACTICE OF CONRAD MURRAY, M.D.**

On June 10, 2010, the Investigative Committee of the Nevada State Board of Medical Examiners and Dr. Conrad Murray entered into a Stipulation and Order which orders the restriction of Dr. Murray's scope of medical practice in the state of Nevada. Specifically, the Stipulation and Order restricts Dr. Murray from prescribing or administering any anesthetic agent normally administered by an anesthesiologist, including but not limited to Propofol or any other heavy sedatives used as anesthesia. Dr. Murray may still prescribe or administer other medications, including pain and anti-anxiety medications or local or topical anesthetics, and in conjunction with other physicians, participate in medical treatment which involves the use of Propofol or any other heavy sedatives used as anesthesia, providing that Dr. Murray does not personally prescribe or administer these medications.

The Stipulation and Order results from the pending criminal allegations against Dr. Murray, and associated conditions of bail in the state of California, stemming from the death of Michael Jackson, who was a patient of Dr. Murray's.
